Note: Always refer to the manufacturer's manual before installation. All gas hobs can be converted to liquid petroleum gas (LPG) using the kit provided. This conversion must be carried out by a suitably qualified Gas Safe registered installer. From 1st April 2009, a new Gas Safe Register replaced the CORGI gas registration scheme. Only Gas Safe registered engineers should be employed to carry out work on gas installations or appliances in your home. *Elements Siamesed - Front left with rear left and front right with rear right. Siamesed elements power share.
